

SOFTWARE REQUIREMENT SPECIFICATION

Name	Vignesh K S
Roll No	7376221CS346
Seat No	270
Project ID	30
Project Title	Industry Relation Programme

Technical Components

COMPONENT	TECH STACK
Frontend	React
Backend	Node.js with Express.js
Database	MongoDB
API	Open API

1.Introduction

1.1. Purpose:

This document outlines the Software Requirements Specification (SRS) for the Industry Relations Program (IRP) Management System. The system aims to streamline the management of industry relations activities at your college by centralizing the storage and retrieval of data pertaining to industry personnel visiting the college for events and college faculty visits.

1.2. Scope:

Creating a dashboard for the system. A dashboard would likely provide an overview of key data and functionalities, such as a summary of industry visits, faculty visits, search and filtering options, and actions for admins like adding or editing entries.

- **User Management:**

Admin users (IIPC members) will have the ability to manage accounts, create, update, and delete data.

- **Industry Person Details:**

This includes information such as name, email, phone number, alumni status, and industry affiliation details like company name and address and coordinator details like name, phone number, email.

- **Event/Visit Details:**

Information related to events and visits, such as event/visit type and date.

- **College Faculty Visit Details:**

Details of college faculty visits, including faculty name, email, phone number, date of visit, and type of visit.

- **Search and Filtering:**

Users will be able to search by name, filter by multiple criteria, and utilize date range filtering for efficient data retrieval.

1.2. Intended Users:

- Admin users (IIPC members) are the primary users responsible for creating, updating, and deleting data within the system.

2. Functional Requirements

2.1. User Management:

Admin Users(IIPC members) should be able to:

- Register, log in, and manage their accounts.
- Create, update, and delete user accounts.

2.2. Industry Person Details:

- Fields for industry person information like name, email, phone number, and alumni status.
- Fields for industry affiliation details such as company name and address.
- Fields for event/visit details including date and type.

2.3. College Faculty Visit Details:

- Fields for faculty details including name, email, and phone number.
- Fields for event/visit details such as date and type.

2.4. Search and Filtering:

- Comprehensive search functionality by name.
- Date range filtering for efficient data retrieval.

3. Non-Functional Requirements

3.1. Security:

- Secure user authentication and authorization mechanisms should be implemented.

3.2. Performance:

- Ensure efficient data retrieval and response times.

3.3. Usability:

- Provide intuitive search and filtering options for user convenience.

3.4. Accessibility:

- Adhere to accessibility guidelines to ensure usability for users with disabilities.

4.Features

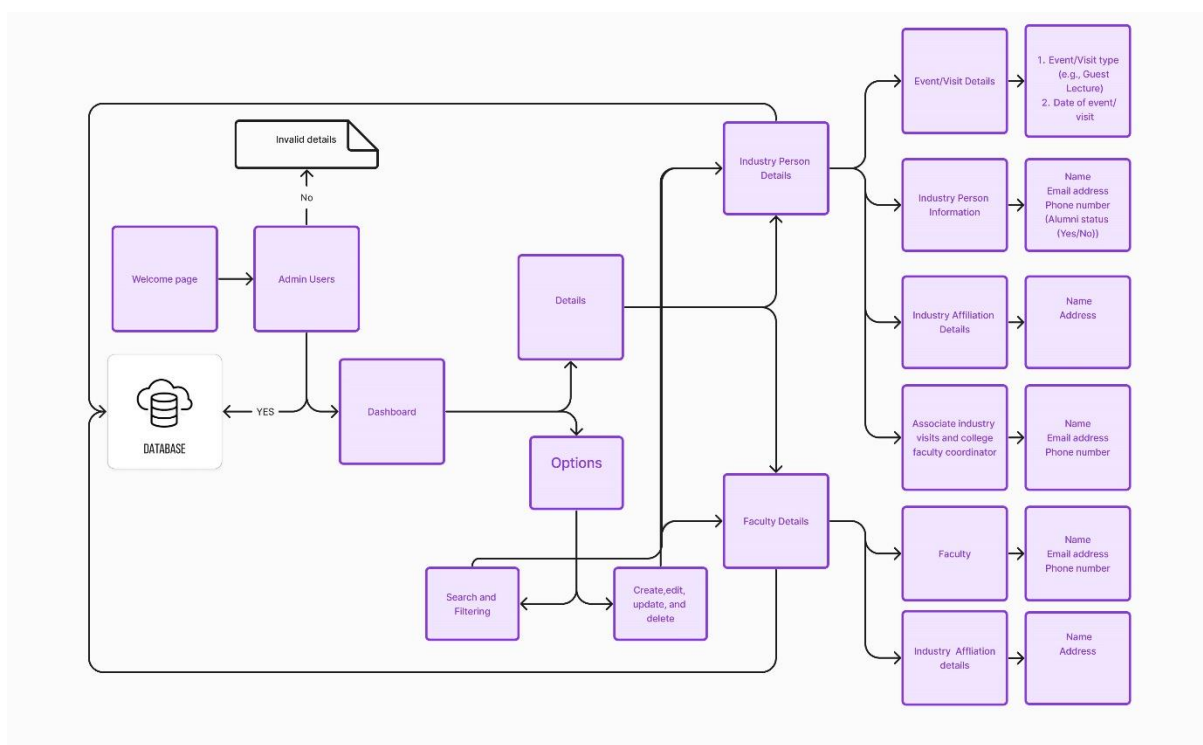

4.1. Searching and Filtering:

- Advanced filtering capabilities, allowing users to filter by multiple criteria (name, industry, visit date).
- Date range filtering for efficient data retrieval.

4.2. Users (IIPC members)

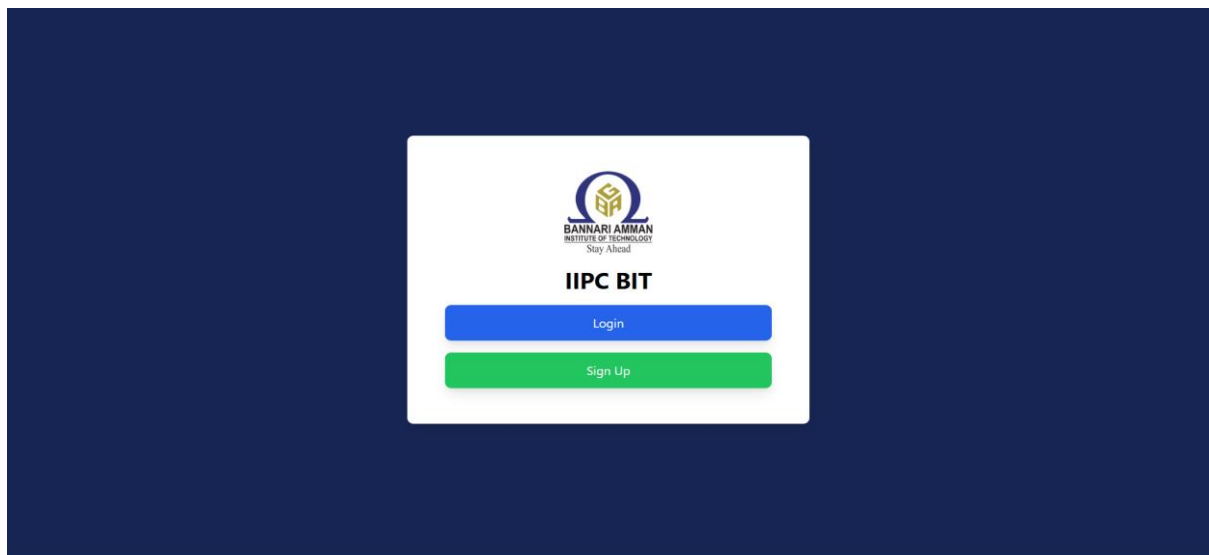

- Create, update, and delete the entry in the dashboard.

5.Flowchart

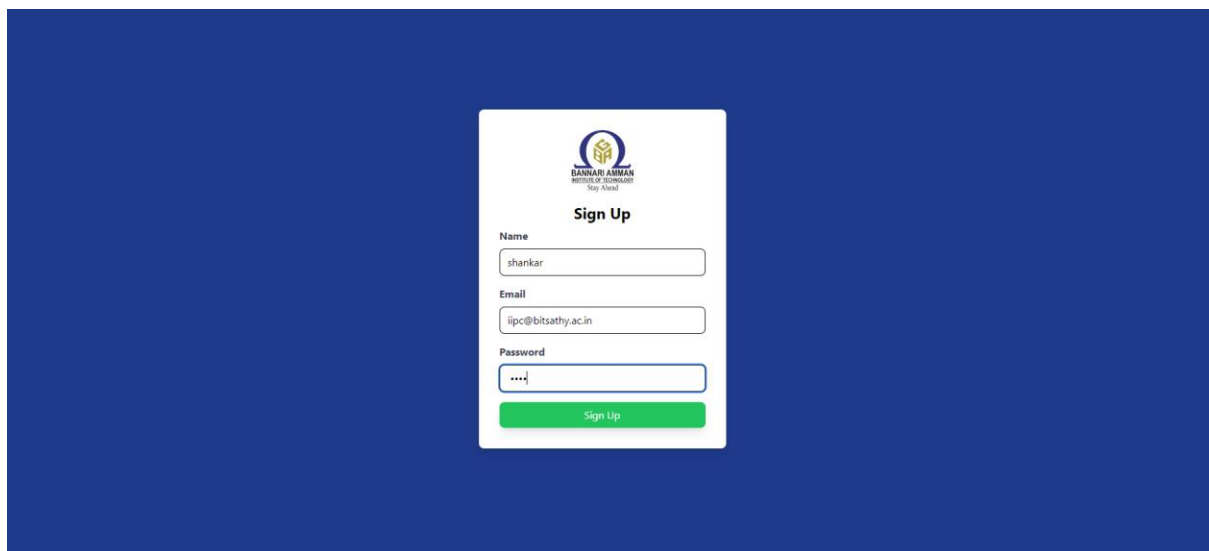

6.Prototype

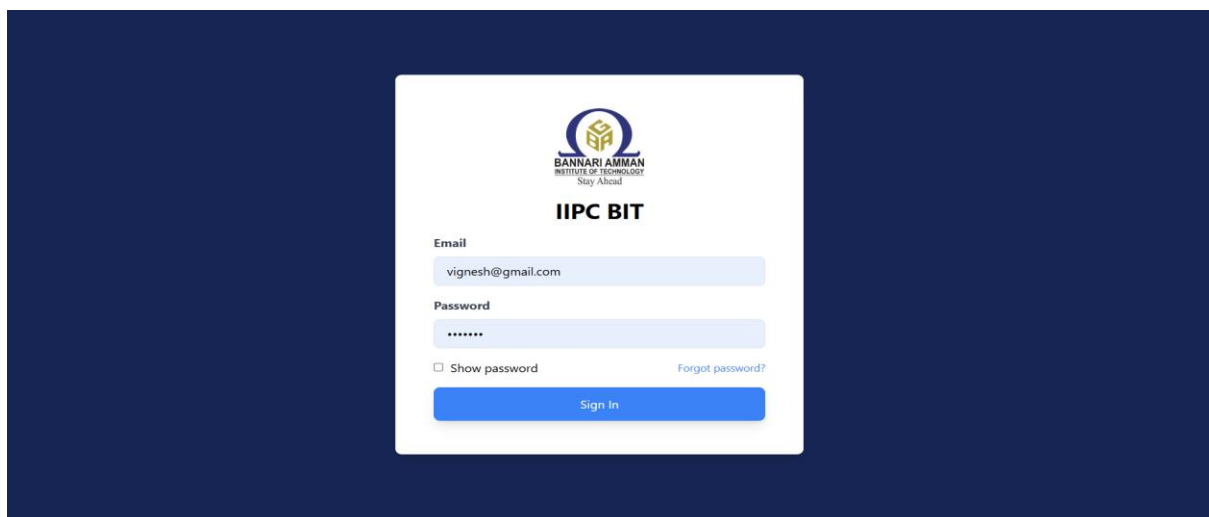

6.1 Login page:

The image shows a login and sign-up page for IIPC BIT. The page has a dark blue background. In the center, there is a white card with the Bannari Amman Institute of Technology logo at the top. Below the logo, the text "IIPC BIT" is displayed. There are two buttons: a blue "Login" button and a green "Sign Up" button.

The image shows a sign-up page for IIPC BIT. The page has a dark blue background. In the center, there is a white card with the Bannari Amman Institute of Technology logo at the top. Below the logo, the text "Sign Up" is displayed. There are three input fields: "Name" (with the value "shankar"), "Email" (with the value "ipc@bitsathy.ac.in"), and "Password" (with the value "****"). There is a green "Sign Up" button at the bottom.

The image shows a sign-in page for IIPC BIT. The page has a dark blue background. In the center, there is a white card with the Bannari Amman Institute of Technology logo at the top. Below the logo, the text "IIPC BIT" is displayed. There are two input fields: "Email" (with the value "vignesh@gmail.com") and "Password" (with the value "*****"). There is a checkbox labeled "Show password" and a link labeled "Forgot password?". There is a blue "Sign In" button at the bottom.
